Field Crops Research, 31 (1993) 389–392
Elsevier Science Publishers B.V., Amsterdam

Contents of *Field Crops Research*, Volume 31

VOL. 31 NOS. 1,2 **1 JANUARY 1993**
(Actually published November 1992)

Editorial v
Announcement from the Publisher viii

Production efficiency of intercrops relative to sequentially-planted sole crops in a humid tropical environment
J.R. Benites, R.E. McCollum and G.C. Naderman (Raleigh, NC, USA) 1
The banana–bean intercropping system – bean genotype × cropping system interactions
C.S. Wortmann and T. Sengooba (Kampala, Uganda) 19
Yield, yield components and source–sink relationships in water-stressed sunflower
V.O. Sadras, D.J. Connor (Parkville, Vic., Australia) and D.M. Whitfield (Tatura, Vic., Australia) 27
Grain growth of *Pennisetum glaucum* (L.) R.Br. under well-watered and drought-stressed conditions
P. Bieler, L.K. Fussell (Niamey, Niger) and F.R. Bidinger (Patancheru, Andhra Pradesh, India) 41
The influence of water deficit prior to tassel initiation on maize growth, development and yield
D.G. Abrecht and P.S. Carberry (Aitkenvale, Qld.,Australia) 55
Interdependence of nitrogen and irrigation effects on growth and input-use efficiencies in wheat
P.R. Gajri, S.S. Prihar and V.K. Arora (Ludhiana, India) 71
Effect of irrigation on water use, water-use efficiency, growth and yield of mungbean
R.K. Pannu and D.P. Singh (Hisar, Haryana, India) 87
Soybean development as influenced by illuminance during extended daylengths
T.R. Sinclair (Gainesville, FL, USA) 101
Nitrogen rate and timing effects on meadowfoam oil yield and oil-yield components
G.D. Joliff, M. Seddigh and M.L. McGahuey (Corvallis, OR, USA) 111
Limitation of kernel yield by the size of conducting tissue in winter wheat varieties
Z. Nátrová (Praha-Ruyznë, Czechoslovakia) and L. Nátr (Praha, Czechoslovakia) 121
Growth responses of *Calopogonium caeruleum* to dual inoculation with vesicular-arbuscular mycorrhizal fungi and bradyrhizobia
A. Ikram, A.W. Mahmud, K. Chong and A.W. Faizah (Kuala Lumpur, Malaysia) 131
Defoliation during vegetative growth of corn: the shoot:root ratio and yield implications
E.L. Piper and A. Weiss (Lincoln, NE, USA) 145
Use of chemical desiccants and senescing agents to select wheat lines maintaining stable grain size during post-anthesis drought
M.E. Nicolas and N.C. Turner (Wembley, W.A., Australia) 155
Daytime chlorophyll fluorescence measurement in field-grown maize and its genetic

variability under well-watered and water-stressed conditions
A. Selmani and C.E. Wassom (Manhattan, KS, USA) 173

Book Reviews 185
Guide for Authors 189

VOL. 31 NOS. 3,4 — 15 JANUARY 1993
(Actually published December 1992)

Announcement from the Publisher i

Effect of level and timing of moisture stress on soybean yield, protein, and oil responses
N. Foroud, H.-H. Mündel, G. Saindon and T. Entz (Main, Lethbridge, Alta, Canada) 195
Effects of irrigation on CO_2 assimilation and radiation use efficiency in wheat
D.M. Whitfield (Tatura, Vic., Australia) 211
Eight cycles of selection for drought tolerance in lowland tropical maize. I. Responses in grain yield, biomass, and radiation utilization
J. Bolaños and G.O. Edmeades (Mexico D.F., Mexico) 233
Eight cycles of selection for drought tolerance in lowland tropical maize. II. Responses in reproductive behavior
J. Bolaños and G.O. Edmeades (Mexico D.F., Mexico) 253
Eight cycles of selection for drought tolerance in lowland tropical maize. III. Responses in drought-adaptive physiological and morphological traits
J. Bolaños, G.O. Edmeades and L. Martinez (Mexico D.F., Mexico) 269
Nitrogen and biomass accumulation by alfalfa under high temperatures of late summer
T.R. Sinclair and H.C. Randall (Gainesville, FL, USA) 287
Response of germination to temperature amongst diverse sorghum hybrids
L.J. Wade (Emerald, Qld., Australia), G.L. Hammer (Toowoomba, QLD., Australia) and M.A. Davey (Brisbane, QLD., Australia) 295
Effect of seedling age and nitrogen levels on yield of rice on a sodic soil
K.N. Singh and D.K. Sharma (Karnal, India) 309
Accumulation and partitioning of dry matter and nitrogen in traditional and improved cultivars of taro (*Colocasia esculenta* (L.) Schott) under varying nitrogen supply
B.C. Jacobs and J. Clarke (Alafua Campus, Western Samoa, Samoa) 317
Effects of phosphorus and potassium on N_2 fixation (^{15}N-dilution) of field-grown *Centrosema acutifolium* and *C. macrocarpum*
G. Cadisch, R. Sylvester-Bradley (Cali, Colombia), B.C. Boller and J. Nösberger (Zürich, Switzerland) 329
Effect of autumn harvest date on herbage yield and composition of grasses and white clover
H.T. Kunelius and P.R. Narasimhalu (Charlottetown, P.E.I., Canada) 341
Physiological attributes related to the generation of grain yield in bread wheat cultivars released at different eras
G.A. Slafer and F.H. Andrade (Buenos Aires, Argentina) 351
Determining appropriate group number and composition for data sets containing repeated check cultivars
J.K. Bull (Bundaberg, Qld., Australia), K.E. Basford, I.H. DeLacy and M. Cooper (Queensland, Australia) 369
